

To **count** is to **say numbers in order**.

► To count by **tens**, add **ten** each time.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

- 1 Read the question carefully.
- 2 Count the groups of 10 objects to find the answer. (box)
- 3 Read the correct answer. (orally)

10	20	30	40	50	60	70	80	90	100
----	----	----	----	----	----	----	----	----	-----

1. How many pennies are there? There are (30 or 40) pennies.

2. How many pennies are there? There are (60 or 40) pennies.

- 1 Read the question carefully.
- 2 Count the groups of 10 objects to find the answer. (box)
- 3 Read the correct answer. (orally)

10	20	30	40	50	60	70	80	90	100
----	----	----	----	----	----	----	----	----	-----

3. How many fingers are there? There are (20 or 40) fingers.

4. How many fingers are there? There are (30 or 50) fingers.

- 1 Read the question carefully.
- 2 Count the groups of 10 objects to find the answer. (box)
- 3 Read the correct answer. (orally)

10	20	30	40	50	60	70	80	90	100
----	----	----	----	----	----	----	----	----	-----

5. How many eggs altogether?

eggs

6. How many hot dogs altogether?

hot dogs

Skill Closure

10	20	30	40	50	60	70	80	90	100
----	----	----	----	----	----	----	----	----	-----

1. Count to 100 by ten starting at 10.
2. Count to 100 by ten starting at 50.

Concept Closure

Keilah counted to 50 by tens. She was incorrect. What did she do wrong? Explain.
